Mobile Phone Secrets & Tricks :--

.:: NOKIA ::.Universal Codes

Code Description :

These Nokia codes will work on most Nokia Mobile Phones :

(1) *3370# Activate Enhanced Full Rate Codec (EFR) - Your phone uses the best sound quality but talk time is reduced my approx. 5%

(2) #3370# Deactivate Enhanced Full Rate Codec (EFR) OR *3370# (Favourite)

(3) *#4720# Activate Half Rate Codec - Your phone uses a lower quality sound but you should gain approx 30% more Talk Time.

(4) *#4720# Deactivate Half Rate Codec.

5) *#0000# Displays your phones software version, 1st Line : Software Version, 2nd Line : Software Release Date, 3rd Line : Compression Type. (Favourite)

(6) *#9999# Phones software version if *#0000# does not work.

(7) *#06# For checking the International Mobile Equipment Identity (IMEI Number). (Favourite)

(8) #pw+1234567890+1# Provider Lock Status. (use the "*" button to obtain the "p,w" and "+" symbols).

(9) #pw+1234567890+2# Network Lock Status. (use the "*" button to obtain the "p,w" and "+" symbols).

(10) #pw+1234567890+3# Country Lock Status. (use the "*" button to obtain the "p,w" and "+" symbols).

(11) #pw+1234567890+4# SIM Card Lock Status. (use the "*" button to obtain the "p,w" and "+" symbols).

(12) *#147# (vodafone) this lets you know who called you last.

(13) *#1471# Last call (Only vodofone).

(14) *#21# Allows you to check the number that "All Calls" are diverted to

(15) *#2640# Displays security code in use.

(16) *#30# Lets you see the private number.

(17) *#43# Allows you to check the "Call Waiting" status of your phone.

(18) *#61# Allows you to check the number that "On No Reply" calls are diverted to.

(19) *#62# Allows you to check the number that "Divert If Unreachable (no service)" calls are diverted to.

(20) *#67# Allows you to check the number that "On Busy Calls" are diverted to.

(21) *#67705646# Removes operator logo on 3310 & 3330.

(22) *#73# Reset phone timers and game scores.

(23) *#746025625# Displays the SIM Clock status, if your phone supports this power saving feature "SIM Clock Stop Allowed", it means you will get the best standby time possible.

24) *#7760# Manufactures code.

(25) *#7780# Restore factory settings.

26) *#8110# Software version for the nokia 8110.

(27) *#92702689# Displays - 1.Serial Number, 2.Date Made, 3.Purchase Date, 4.Date of last repair

(0000 for no repairs), 5.Transfer User Data. To exit this mode you need to switch your phone off then on again. (Favourite)

(28) *#94870345123456789# Deactivate the PWM-Mem.

(29) **21*number# Turn on "All Calls" diverting to the phone number entered.

(30) **61*number# Turn on "No Reply" diverting to the phone number entered.

(31) **67*number# Turn on "On Busy" diverting to the phone number entered.

(32) 12345 This is the default security code.

press and hold # Lets you switch between lines

IMEI number: * # 0 6 #

Software version: * # 0 0 0 0 #

Simlock info: * # 9 2 7 0 2 6 8 9 #

Enhanced Full Rate: * 3 3 7 0 # [# 3 3 7 0 # off]

Half Rate: * 4 7 2 0 #

Provider lock status: #pw+1234567890+1

Network lock status #pw+1234567890+2

Provider lock status: #pw+1234567890+3

Enable EFR : [][][] 119 [] 1 [] OK.
disable EFR : [][][] 119 [] 0 [] OK
.:: Tips and Tricks ::.
Send an E-mail from your GSM
From your telephone you can send an email to whichever E-mail customer of the Internet network.The e-mail will be sent to the maximum of within an hour from the reception.The sended message will contain in luminosity the telephone number of the sender. In order for sending e-mail, send an SMS with this syntax (always separated by spaces):EMA name@domain text-of-your-email Example: in order to send an email to john@doe.com, do the following: EMA john@doe.com text-of-your-email if your phone cant print @

replace it with a ! EMA johon!doe.com text-of-your-email And then send this message to the folloving number: +39 338 8641732

Free SMS Center numbers

From your telephone you can send SMS messages of 160 char. max. to another GSM phoneYour message will be sent through an SMS Center (usually the one that gave your provider) You pay a little fee depending of your provider, BUT YOU WILL HAVE TO PAY something In order for sending SMS without paying anything, you got to change your SMS Center number with these one +491722270300 or +358405202999 or 352021100003

Codes (that they dont tell you in the manual)

To check the IMEI (International Mobile Equipment Identity) type: *#06# Information you get from the IMEI:
XXXXXX XX XXXXXX X TAC FAC SNR SP TAC = Type Approval Code (first 2 digits = country code).
FAC = Final Assembly Code (For Nokia phones FAC=10). SNR = Serial Number. SP = Spare (always SP=0).To check the phone's software (firmware revision information) type: *#0000# (or for some phones outher then Nokia 61XX you can try *#model nummber# ex. for 8110 *#8110#) Information you can get from the phone's software version: V 3.14 28-11-97 NSE-3 1st line: Software version. 2nd line: The date of the software release.3nd line: Phone type, .Some versions and dates:V 3.14 28/11/97 V4.33 11/03/98 V 4.73 22/04/98 V 5.24 14/9/98

Pin-Out Diagram for the 6110

1 - VIN CHARGER INPUT VOLTAGE 8.4V 0.8A
2 - CHRG CTRL CHARGER CONTROL PWM 32Khz
3 - XMIC MIC INPUT 60mV - 1V
4 - SGND SIGNAL GROUND
5 - XEAR EAR OUTPUT 80mV - 1V
6 - MBUS 9600 B/S
7 - FBUS_RX 9.6 - 230.4 KB/S
8 - FBUS_TX 9.6 - 230.4 KB/S
9 - L_GND CHARGER / LOGIC GND

Revealing Headphone and Car-Kit Menus

Think about this: If you do these tricks the new menus can not be erased after the procedure. But it's not dangerous or harmful for your phone To enable the headset-function, you have to short-circuit the "3" and "4". After a short time there is "Headset" on the display Now, menu 3-6 is now enabled! To enable the carkit-function you have to short-circuit the "4" and "5". After a short time, "Car" is shown on the display and the menu 3-7 is enabled!!
This Trick is for you how want to hear more then your supposed to!

If you short-circuit the left and the right contact with the middle contact ("3", "6" and "9") the Nokia Software hangs! The profile "Headset" will be activated. Before you do this, just active the "auto call receive" function in the headphone profile and set the ringing volume to "mute" Now you can use your phone for checking out what people are talking about in a room. Place the phone somewhere stratidic and call your phone! The phone receives the call without ringing and you can listen to what people are talking about! .....gr8...

Serial numbers on your 6110

For more info type: *#92702689#
The first screen gives you the serial and IMEI number.
Then there is the Date of Manufacture: ex. Made 1297
Then there is the Purchasing Date: ex. Purchasing Date 0298
Then there is the last Repair Date: ex. Repaired: 0000
Note: you must turn off the phone to exit after this test, because of the last function, "transfer user data" which Doesn't work as "standard"....You can use this mode only to transfer all Calender, Profile and Callers Group Information to another phone (eg. if you are replacing phone or configuring phones for use within your company or when a particular phone doesn't works correctly)

Activating and deactivating EFR and HFR, on your 6110

*3370# to activate Enhanced Full Rate - Makes calls sound better, but decreases the battery life by about 5%.#3370# to deactivate Enhanced Full Rate
*4720# to activate Half Rate Mode - Drops call quality, but increases battery life by about 30%.
#4720# to deactivate Half Rate Mode
